

ROOT WILL HAVE A MAGNIFICENT ARMY IN THE PHILIPPINES.

HE IS HARD AT WORK. Is Giving His Personal Attention to Its Organization and Equipment.

WASHINGTON, Aug. 4.—

The magnificent army with which the Fall campaign against the Filipino rebels will be opened, and to the proper organization and equipment of which Secretary Root is giving his personal attention, will consist of 47,685 active fighting men.

It is desired at the War Department that the exact figures be published, inasmuch as the statement was widely published this morning that Secretary Root would put a force of 40,000 men in the field for this campaign.

The Journal estimate this morning was 47,685 men.

The following figures are given from the official memorandum cabled by General Otis and furnished from the office of the Adjutant-General:

The Army in the Philippines.
Total enlisted strength in Philippine regiments, regular army, according to cable, from July 2, 1901, to July 2, 1902, 17,940
Enlisted strength of organizations arrived since July 2, at sea on route, 4,726
Recruits arrived at Manila since July 2, 1,505
Recruits now en route, 1,690
Recruits at the Presidio, 2,501

50,000 Officers and Men.
The foregoing figures do not include the officers. It is estimated that 2,500 should be added for officers, so that all told there will be 50,000 American officers and men in the field when the fighting begins in the Fall.

This army will consist of the flower of the regulars, 30,000, including Signal Corps and Hospital Corps, and 17,017 picked volunteers.

It is admitted at the War Department that it will require immense and intelligent energy to keep on an aggressive campaign of 50,000 on a fighting basis 10,000 miles from the office of the Secretary of War.

Mr. Root has already grasped the situation in line and has familiarized himself with a great many bureau details necessary to carry out the stupendous programme presented by the next campaign. Mr. Root addressed himself to the important item of transportation to and from Manila.

The detailed statement furnished him by Quartermaster-General Ludlow is as follows, showing, as stated in the Journal to-day, that thousands of troops will reach Manila long before November:

Disposition of Troops.
Vessels at San Francisco to sail on the dates given:
Morgan City, August 8, with 30 officers and 600 men.
Senator, August 15, 30 officers and 712 men.

Hancock, September 15, with 50 officers and 1,250 men.

The St. Paul will sail from Seattle with the Third Cavalry, with 1,000 men, on the route to Manila and due on dates given:
The City of Paris, August 12, with two troops of the Fourth Cavalry, two companies of the Twenty-fourth Infantry and Company B, United States Engineers.
Tartar, August 24, with headquarters and eight companies of the Nineteenth Infantry, Ohio, August 25, with two companies of the Nineteenth Infantry and recruits.

Otis Corrects a Cable Error.
Washington, Aug. 4.—General Otis to-day cabled the following:
"Adjutant-General, Washington, Aug. 4. "Error cable yesterday. Minnesota and South Dakota take transport, not Montana."

The cable of yesterday caused considerable dissatisfaction in Minnesota, as it had previously been announced that the Minnesota regiment was to sail next. Inquiries from the War Department developed the error.

SPAIN MUST PREPARE TO DEFEND HER ISLANDS.

Will Lose What She Has Left, Says Duke of Tetuan, Unless She Acts Promptly.

Madrid, Aug. 4.—The Duke of Tetuan, former Minister of Foreign Affairs, has arrived at San Sebastian. He will visit the Queen Regent and then go to Zarauz to see Marshal Martinez de Campos.
"The Duke says he will continue to support the Government. He has been convinced during his stay abroad of the necessity for Spain to recover her prestige. She must make sacrifices, he says, especially to give the Canaries, Celestines and Ceuta in a state of defence, or else she will lose them in the event of a conflict between the powers."

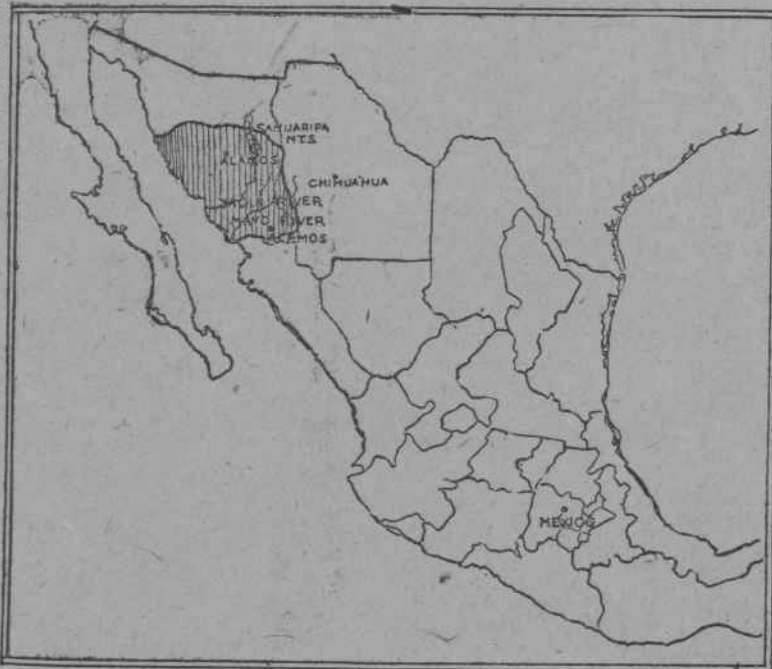

He does not believe that General Weyler is disposed to employ illicit measures. General Weyler has gone to San Sebastian. A number of generals and other officers send him farewell at the railway station, and his train left amid shouts of "Vive Spain," "Vive Weyler," and "Vive the Army."

Old Sol an Incendiary.
Paris, Aug. 4.—The intense heat to-day caused a fire in a celluloid factory, which was totally destroyed. Three firemen and a workman were injured.

2,000 AMERICANS

The Land of the Yaquis. The shaded part of the map shows the district in Mexico occupied by a tribe of aborigines that Spaniards and Mexicans have not subdued in three centuries of bitter warfare.

Mexican Indians Will, It Is Feared, Kill All the Miners.

THE UPRISING SPREADS.

Fully 40,000 Troops Will Be Needed to Conquer the Braves.

AUSTIN, TEX.,

Aug. 4.—A dispatch received here from Cuernavaca, State of Chihuahua, Mexico, states that four American miners have arrived there direct from the Upper Yaqui River country. They were driven out by marauding bands of Yaqui Indians.

Thomas Harvell, one of the party, who formerly lived in Austin, says that there are probably 2,000 American miners and prospectors scattered through the Yaqui country and their lives are in imminent danger.

Harvell says the news of the bloody outbreak among the Yaquis in the lower valley had not reached the upper part of the stream when he left and that as soon as such news is received by the Indians in the placer mining region they will massacre every white man along the river.

He estimates that there are 5,000 Yaqui braves and that it will take a force of fully 40,000 Mexican troops to conquer them, if they are enabled to reach their former strongholds in the Sahuaripa Mountains.

City of Mexico, Aug. 4.—Dispatches from Guaymas show that the Yaqui insurrection is constantly growing, and all the Indians in the towns along the river are rising and taking to the woods and mountains to join their companions.

Jack Ramsey, the famous frontier character, and an American photographer, Ed. Miller, were on the way to Alamosa when they were attacked by the Indians and killed.

Three sloops on the Yaqui River, near Medero, were attacked, and Aurelio P. Paredes, who was in charge, was killed. The vessels were set on fire, but were saved by Federal forces, who drove the savages away. The body of Paredes was found floating in the river.

It is reported that the Romero family were captured as they were about to embark on one of the sloops, and that Paredes was killed in trying to rescue them.

POLO GAME FATAL TO ENGLISH CRACK.

J. W. Drybrough Dies After an Accident at Rugby.

LONDON, Aug. 4.—J. W. Drybrough, one of the best polo players in England, died this morning as the result of injuries received yesterday afternoon during a polo tournament at Rugby.

He was playing in the semi-final game, and had only commenced a few minutes when he and an American named MacKay met in collision. Both ponies fell and rolled over the players.

Mr. MacKay was unhurt, but Mr. Drybrough, who was suffering from concussion and fracture of the skull, expired to-day without having regained consciousness.

Mr. MacKay is a native of Wisconsin. He was formerly a member of the Chicago Board of Trade, and has been living near Lexington for a number of years. He was well known in hunting and polo circles here.

GEN. LUDLOW'S COURSE APPROVED BY CUBANS.

Only Criticism of His New Order Is That It Was Delayed Too Long.

Havana, Aug. 4.—The Executive Committee of the late Cuban Assembly is still promoting veterans. By its latest resolution Satorio, the Alcide de Gibrara, was made a Brigadier-General.

The Diario de la Marina indorses the Patria's approval of the action of General Ludlow in suspending the Reconcentrado. The only complaint against him is that he did not act before.

A stormy meeting has been held at the Academy of Sciences to protest against the admission of American lawyers and doctors to practise in Cuba, either after examination or without. About 300 persons were present.

The abolition of the incommunicado system takes effect to-day.

Whether this stable government can be successfully provided for at the first session of Congress is a question that cannot now be answered, but I do not think there will or should be any unusual delay in dealing with the subject.

Hiram P. Olmstead, of the Department of Labor, will be selected as director of the Cuban census.

It is the intention of the War Department to expedite the taking of this census so that the result will be submitted to Congress not later than January 1 next.

Six prominent Cubans, each representing a province, will be in Washington to-morrow. Tuesday afternoon a conference to arrange details will be held between them and Secretary Root, Assistant Secretary of War, and the Census Bureau.

Upon the results obtained on the question of activity and age will depend the elective franchise and the enrolment of the voters of the first election to be held in the island.

The taking of this census will be under the control of the War Department in Cuba, and all the supervisors and enumerators will be native Cubans.

Adjutant-General Corbin stated to-day emphatically that there is no foundation for the sensational story appearing this morning to the effect that General Brooke and Ludlow, Colonel Bliss and Major Davis, now on duty in Cuba, had been granted allowances which doubled their pay as army officers.

"The facts are," said General Corbin, "that these officers were allowed a certain sum of money by Secretary Algor for establishments which they are required to maintain in Cuba. They are legitimate expenses connected with the public service, and every day have been paid out on proper vouchers. Not a penny of the money goes to the officers."

FRANCE NOW RETURNS RUSSIA'S POLITE CALL.

St. Petersburg, Aug. 4.—M. Theophile Delcasse, French Minister of Foreign Affairs, arrived here to-day from Paris to return the recent visit of Count Muraviev, Russian Minister of Foreign Affairs. This afternoon he was received by Count Muraviev, with whom he will dine to-morrow.

Count Lannes de Montebello, French Ambassador to Russia, will return to his office on Sunday. M. Delcasse will remain in St. Petersburg five days.

Neither He Nor Our Other Officers Are Wasting Cuba's Funds.

NO LUXURIOUS LIVING.

In Fact, Cubans Contrast Our Democracy with the Prodigality of Spaniards.

HAVANA, Aug. 4.—

Considerable comment was caused here this afternoon by the publication of a dispatch from the United States embodying the charge that Governor-General Brooke, Brigadier-General Ludlow, Military Governor of Havana; Collector Tasker Bliss and Major Davis, sanitary officer at Havana, have been receiving extra allowances out of the Cuban revenues to maintain themselves in luxury.

The feeling among Americans in Havana is that this charge is based upon a serious misapprehension of the facts of the case. The suggestion of luxurious living perplexes the Cubans, who are in a position to contrast the democratic way in which men holding the high rank held by Generals Brooke and Ludlow conduct their establishments with the prodigal habits of the old Spanish regime.

As to the charge that General Brooke has expended money in repairing the palace, the Americans reply that this old and historic structure had either to be repaired or to be pulled down, and consequently about \$100,000 has been expended on it.

But instead of being, as heretofore, the private residence of the Governor-General, the palace is now a nest of public offices, including one large wing devoted to the Mayor, Senor Perfecto Lacoste, and the municipal offices.

General Brooke's private quarters are unequal to what would be allowed him on any station in the United States. Aside from the official reception room, his apartments are modestly furnished.

As to the Governor-General's carriage and horses, the fact is that the necessary expenditure in this direction does not come out of the insular funds, but is met by the United States. General Brooke's coachman is paid in the same way. As the members of his staff, it is hardly to be expected that an official of General Brooke's military and administrative status would pay his own transportation expenses.

The same answer to the charge can be made in the case of General Ludlow, who has only a few rooms and is literally surrounded with his family and a few servants. Not many men of equal rank and means in the United States would be content with what satisfies General Ludlow.

Brigadier-General Lee lives in a house which he hires, and General Wilson and General Wood, the Military Governors of Matanzas and Santiago, live most democratically.

As for Colonel Bliss and Major Davis, army officers of high rank who hold high administrative office are put to many expenses, especially in this expensive country, and the opinion is generally expressed that it is only fair that the United States should allowance to cover what is necessary.

CONGRESS TO GIVE CUBA A STABLE GOVERNMENT.

Senator Foraker Says the Question Will Come Up Early—Olmstead to Direct Cuban Census.

Washington, Aug. 4.—Senator Foraker of Ohio, one of the champions of Cuban independence, is in Washington for two or three days. He expects prompt action by Congress next Winter, looking to the establishment of a stable government for the island.

"The Cuban question," he said, "will doubtless come up early in the next Congress, and we shall have to devise means for the establishment of a stable government on that island, in accordance with our solemn pledges."

"Whether this stable government can be successfully provided for at the first session of Congress is a question that cannot now be answered, but I do not think there will or should be any unusual delay in dealing with the subject."

The Queen of The Netherlands as She Is.

She Pouts at Her Baby Picture on the Nation's Money.

Aug. 5.—The young Queen Wilhelmina is again dissatisfied with the portraits of herself that appear on the coins and postage stamps of her country.

These represent her as a child, with hair falling girlishly down her back.

Now that Wilhelmina has grown up to be a stylish young woman, with her hair done up in a knot, and quite pretty, according to the Holland standard, she is not pleased to have everybody regard her as a child.

So it has been determined to change the design of the country's money. A picture of the Queen as she is to-day is to be substituted for the portrait of the child. The Queen also desires the design to bear inscriptions commemorative of the peace conference at The Hague.

PEACE ADVOCATES ADOPT AN AMERICAN MOTION.

CHRISTIANIA, Aug. 4.—At today's session of the Interparliamentary Conference a motion by Messrs. Samuel J. Barrows, of Boston, and Richard Barthold, of St. Louis, in favor of the immunity of private property at sea, was unanimously adopted.

Their action was suggested by President McKinley's reference to the subject in a message to Congress.

The Conference closed its sessions this evening, after the delegates had unanimously agreed to accept an invitation to hold next year's conference in Paris.

The Interparliamentary Peace Conference meets once every year and is composed of delegates from peace societies all over the civilized world.

Last year the conference met at Berlin, and the delegates were instructed to labor for the founding of an international organization, or tribunal.

The Inter-Parliamentary Conference has no connection with the Peace Congress recently held at The Hague, though some of its members hold that the great congress was due, in part at least, to the sentiments aroused by the yearly gathering of the Academic Conference.

It is conceded by parliamentarians that much good has been done by the Inter-Parliamentary Conference through its advocacy of more humane methods of warfare.

The present conference in Christiania is presided over by Herr Lund, a Liberal member of the Lagthing (Lower House).

TOWN REGATTA IS VIEWED BY WALES NOT GO TO COWES.

From the Deck of Mr. Acute Stage of Transvaal Jameson's Yacht Question Kept Him off Cowes.

COWES, Aug. 4.—

This evening the Prince of Wales gave a dinner on board the royal yacht Osborne.

Sepoy Shoots a High Official.

HEUREAUX'S SLAY

Solemn Funeral Service Held in Santo Domingo Cathedral.

JIMINEZ NO FILIBUSTER.

Says He Has Plenty of Ven to Put Him in Power as President.

SANTO DOMINGO, Aug. 4.—

A solemn funeral service in memory of the late President Heureaux, who was assassinated at Moca July 25, was held in the Cathedral here to-day. The tranquility prevails, though troops have been sent to Moca in pursuit of the assassins.

The United States cruiser New Orleans arrived here to-day from Newport, R. I., which port she left July 25.

Jiminez Denies an Interview.
Havana, Aug. 4.—General Juan Jiminez, when his attention was called to a cable summary of an alleged declaration made by him here recently and published in the United States, to the effect that he was about to proceed to the United States to organize an expedition against the existing government of Santo Domingo, replied that he had not made the statement attributed to him.

He went on to say that it was quite unnecessary for him to proclaim himself hostile to the present government of Santo Domingo, as it could not possibly last beyond the 15th of this month.

"I did hear," he continued, "that Heureaux was sending men to Cuba to kill me, but I knew nothing whatever regarding the plot to kill him. I had no connection and have no connection with the Ramon Caceres, who did the shooting."

"I do not believe that the United States will interfere with my government in Santo Domingo, which will be a government peaceful and helpful to all for the United States did not interfere with the government of Heureaux, who robbed and murdered for fourteen years."

Has Plenty of Men.

General Jiminez admits that he has often been to the United States incognito, but says he has not had interviews with official persons. He considers that there is no need of promoting expeditions to land in Santo Domingo, as already there are a thousand men waiting for him, a force which is deemed quite sufficient for his purposes.

Referring to the future relations of Santo Domingo with the United States, he expressed a desire to be on friendly terms with Washington and said he believed he could count upon American sympathy.

Gomez he referred to as "esteemed by all classes of Dominicans, but not sought for as President."

The people of Santo Domingo, he declared, are impatient and are urging him to come to them at once, but, at the same time, he confesses delay, as "each day is worth a dollar."

Du Vivier Case Unsettled.

Port au Prince, Haiti, Aug. 4.—The affair of the recent violation of the American Legation here by armed police who were seeking to arrest Mr. Du Vivier, the newspaper man, has not been definitely settled.

It is understood that the American Minister, William C. Powell, will demand full reparation for the outrage.

Mr. Powell, when interrogated to-day by the correspondent of the Associated Press, declared that the particulars, but said the situation was serious.

THE NEW ORLEANS AT SANTO DOMINGO.

Washington, Aug. 4.—The cruiser New Orleans to-day reported her arrival at Santo Domingo City. Captain Longnecker, of the ship, and Commander Logg of the Machias, have been unable to land in Dominican waters until further orders.

STORIES OF NEW TROUBLE WITH KRUGER FALSE.

Transvaal Government Is Still Considering Mr. Chamberlain's Proposal.

London, Aug. 4.—The stories published in New York that the Secretary of State for the Colonies, Joseph Chamberlain, has renewed his warnings with President Kruger and that the British Cabinet approves such action, are evidently baseless. Mr. Chamberlain's proposal for a joint inquiry as to the effect which the new franchise proposal of the Transvaal Government will have on the position of the Uitlanders was only presented to the Transvaal Government on Wednesday and the latter is still considering it.

Feetoria, Aug. 4.—Horr Fisher, the special agent of the Orange Free State has arrived here to confer with the Transvaal Government, presumably with a view of the altered attitude resulting from the message of Joseph Chamberlain regarding the appointment of a joint commissioner.

Mr. Fischer has conferred with President Kruger, and the former's peaceful views inspire confidence.

The Volksraad has postponed consideration of the report of the dynamic commission in order to permit the company to consult the European directors.

Cape Town, Aug. 4.—In the House of Assembly to-day Mr. Cecil Rhodes expressed a belief that the Transvaal difficulty would be "overcome in a few months and without a shot being fired, owing to the mutual understanding displayed." He predicted that capital would then flow freely.

NO BRITISH VESSEL SEIZED.

Lloyds Know Nothing of the Reported Capture of the Florida by Our Ships.

London, Aug. 4.—Inquiries have been made at Lloyd's here regarding the statement published by a New York newspaper that a British steamer, Florida, from Hong Kong, was captured in the Gulf of Linagayen, June 25, by the United States battleship Oregon and the gunboat Princeton, on suspicion that she was a filibuster, and that she was taken to Manila, though her papers were found to be correct, for the purpose of an inquiry.

That organization has no knowledge of any British vessel named Florida being in Philippine waters.
